Software Engineer (JAVA)

As a software engineer, I possess a wealth of experience in developing web applications using J2EE technologies, such as Spring, Spring Boot, Spring MVC, and Spring Security. My programming, data structures, algorithms, databases, and networking skills are firmly grounded, and I have been certified in Java, Python, and J2EE. Additionally, I have amassed proficiency in HTML, CSS, Bootstrap, React, and various database management systems. My communication, time management, and problem-solving skills are exemplary.

WORK EXPERIENCE

New Buffers • Greater Boston • 03/2022 - 10/2022
Software Engineer Intern

- I am skilled in developing stand-alone modules using robust frameworks such as Spring Boot
- I have expertise in utilizing docker images and managing databases such as MySQL and Postgres.
- I am skilled in using project management tools like Slack and Jira.

EDUCATION

Bachelor's degree in Computer Science
Sir Syed CASE Institute of Technology • 09/2020 - 06/2024
